

## Cooler & Freezer Air Temperature Verification

**Procedure:** Temperatures are taken 4 times a day and logged on the chart below. Please print this log and place on a clipboard or save in a binder. Temperature logs must be saved for 3 years. Once your week is completed either scan and save in a folder on your desktop or save in a binder. Temperature logs must be saved for 3 years.

**Sanitizer:** Sanitizer must be changed when temperatures are checked. (Every 4 hours)

**Control Point:** Cooler temperature should be below 41°F. Freezer temperature should be at or below 15°F.

**Corrective Action:** If cooler temperatures are above 41°F or freezer temperatures are above 15°F, please document your corrective actions below.
